The consequences of bottleneck in European bison conservation

Prof. Wanda Olech-Piasecka – Warsaw University of Life Science

Prof. Wanda Olech-Piasecka developed conservation breeding programs for various populations and animal species, including Japanese quails, mice, Hucul horses and European bison. She is the coordinator of the bison conservation program in Europe within the European Bison Conservation Center. For several years she has been a co-chair of Bison Specialists Group IUCN for Europe. She is a member of the scientific councils of the Białowieża National Park and the Warsaw Zoological Garden. From May 2016 she is the chairperson of the Polish State Council for Nature Conservation.
