

The Millennium Ecosystem Assessment (MEA) was conducted between 2001 and 2005 on the initiative of the United Nation General Assembly. The MEA was intended to assess the consequences of ecosystem change for human well-being and to define the scientific basis for actions aimed to improve the conservation and sustainable use of ecosystems and their contribution to the economic and social progress. Ecosystem services is an integral part of the MEA. Ecosystem services are the multiple benefits provided by ecosystems to humankind and can be divided into supporting services, necessary for the production of all other ecosystem services (such as soil formation and nutrients cycling), provisioning services (e.g. food, water, timber or fuel), regulating services (such as flood control, erosion control) and cultural services that provide recreational, aesthetic, and spiritual benefits.

The Millennium Ecosystem Assessment synthesized information from the scientific literature and relevant peer-reviewed datasets and models to evaluate the evolution of ecosystem services in a diachronic sequence. The geo-historical approach, applied to the study of the ecosystem services is also the spirit of the international conference proposed by the DISSGéA, University of Padua.

This international conference will provide a venue for all researchers interested in interdisciplinary research on ecosystem services in European floodplains from ancient time to the contemporary age. The conference will welcome also papers addressing the issue of the ecosystem services from a critical point of view.

Wednesday, May 17th, 2017

DISSGeA
Palazzo Jonoch, DISSGeA
Via del Vescovado, 30

9:00 Registration
9:30 Speeches by the authorities

10:00-13:00 First Session
Chairman: Paolo Canzian - Elisabetta Novello

10:00 Bertrand Sajaloli (Université d'Orléans) et Etienne Gréillon (Université de Paris - Diderot)

Zones humides et services écosystémiques culturels: Une approche spatiale

10:30 Remy Simonetti (University of Padua)

Environnement et services écosystémiques dans le Polesine: Le cas d'étude de Costa di Rovigo (XVI-XVIIe siècles)

11:00 Discussion

11:20 Coffee break

11:45 Francesco Tognana (University of Padua)

andscape planning and integrated economy in Medieval Italy: the case study of the Adige plain and the Este marketplace (9th-13th centuries)

12:15 Dario Canzian (University of Padua)

Les études d'histoire environnemental dans la Vénétie médiévale: éléments pour une évaluation écosystémique (12e-13e siècles)

12:45 Discussion

15:00-17:00 Second Session
Chairman: Bertrand Sajaloli

15:00 James McCann (Boston University, USA)

Struggles for the soul of the Blue Nile, 1667-2016

15:30 Giovanni Florio (University of Padua)
«Per lo informazione nostra do prodici del paese»: the politics of water resources management in early modern Venice between local know-how and reason of State

16:00 Uwe Lübken (Amerika-Institut LMU München)

Rivers and risk in the city: The urban floodplain as a contested space (17th-20th centuries)

16:30 Discussion

17:30 Guided Tour of the Padua Botanical Garden

Thursday, May 18th, 2017

Palazzo Liviano
Sala Diana
Piazza Capitanato, 7

09:00-13:00 Third Session
Chairman: Salvatore Ciriacoho

09:00 Tim Soens (University of Antwerp)

The simplification of nature: Estuarine ecosystem services in the Medieval and Early Modern river deltas of the low countries

09:30 Raphaël Morera (Centre de recherches historiques, EHESS/CNRS)

Economie, politique et services écosystémiques des zones humides en France (16e-18e siècle)

11:45 Claudia Lorenzini (University of Udine) et Matteo Di Tullio (‘Boconni’ University - Milano)

Looking for the sustainability: Economic water resources and conflicts in Northern Italy (15th-18th centuries)

10:00 Alexey Kravkovskiy (European University at St. Petersburg)

Man's, management and God's Mercy: the Russian monasteries and the environment of the Russian North in the Early Modern time (16th - 18th centuries)

11:00 Discussion

11:20 Coffee break

10:30 Paolo Buonora (Archivio di Stato di Roma)

The Tiber river and hydraulic risk: models of historical intervention

12:15 Arnel Sambo (Université de Maroua)

L'approche par les Services Ecosystémiques (ASE) comme contribution à la gestion du lac Tchad

12:45 Discussion
13:00 Lunch

Thursday, May 18th, 2017

DISSGeA
Palazzo Jonoch, DISSGeA
Via del Vescovado, 30

15:00-17:30 Fourth Session
Chairman: Uwe Lübken

15:00 Elisa Tizzoni (University of Florence)

Ecosystem services and river tourism in 20th century: a case study from Liguria

15:30 Elisabetta Novello (University of Padua)

Credit and land reclamation works in Veneto (19th-20th century)

16:00 Discussion and coffee break

16:30 Silvia Piovani (University of Padua)

A military-engineered flood in WWI: the case study from the Adige and Friaul-Gorzone rivers (Italy)

17:00 Michael Hodgson (University of South Carolina)

The unobserved evolution of ecosystem services provided by mangroves in South Carolina

17:30 Discussion

Friday, May 19th, 2017

Excursion: Land reclamation areas in Veneto

8:30 Departure by bus from Piazzale San Giovanni - Padua

9:00-11:00

Ca' di Mezzo Oasis

Phytodepuration site technical description

11:00-13:00

Garzale della tenuta Civrana (ZPS - Zona di protezione speciale)

13:00

Lunch in Tenuta Civrana

15:00 Pumping Station, Santa Margherita di Codivigo

Conferences: Cultural Ecosystem Service, The Santa Margherita water pump as part of the Water Museum of Venice network

• Visit of the pumping station's museum

• Aperitif

18:00 Return to Padua
